

Project DE-SPEC

Delaware Special Educator Certification

Project Delaware Special Educator Certification (Project DE-SPEC) is designed to address the special education teacher shortage.

Project DE-SPEC will prepare current practicing teachers to provide effective, culturally and linguistically responsive and equitable instruction, interventions, and services to improve outcomes for students with disabilities.

Scholars who successfully complete the coursework in Project DE-SPEC will be eligible for K-12 special education certification through the state of Delaware.

Project DE-SPEC Scholars will be given full tuition support to remove the financial burden of pursuing a certificate in special education.
